Tragedian O'Connor Expects to Marry Mrs. Huebner Before the Play To-Night.

James Owen O'Connor, the tragedian, has a powerful voice, and the stentorian "Come n" which issued from the star's chamber at the Allman House this morning when a reporter of THE EVENING WORLD knocked at the door set the window-panes rattling away down at the end of the corridor.

The tragedian was studying legal papers in company with Mrs. Louise Huebner, the cause of the \$20,000 damage suit brought against Mr. O'Connor by the husband, Robert E. Huebner. This suit was settled last night by the payment of \$2,000 in cash and \$100 for costs. If what Mrs. Huebner and Mr. O'Connor say is true they will be married some time to-day, probably in New Jersey.

"We have not decided where the expemony will take place," said the tragedian. "But when I step upon the boards to-night I will be a married man, won't I, Louise?"

Mrs. Huebner assented with a bewitching smile to this appeal. Then she told her story, which was interrupted many times by tears. She accused her husband of failing to support her and of treating her cruelly. She said she became acquainted with Mr. O'Connor in 1884, when he got her husband out of Essex Market Jail, where he was under arrest on a charge of assault.

LIVERPOOL, April 12.—The million-mouthed mob yelled this morning as the stately Cata-lonia sailed out of the Mersey bearing John L. Sullivan and all the hopes of Boston. Liverpool proved loyal, unlike fickle Lon

The big fellow could not have had a better send-off if the misadventure with Mitchell had never occurred.

The Adelphi Hotel was surrounded during the early morning hours by stevedores on their way to work, and though not then in his fine, farewell appearance costume, Sullivan graciously appeared at the window, bowed and made a speech, and sent laboring

Liverpool men on their way rejoicing.

At 2 o'clock, with a high hat and a white rose on his coat lapel, Sullivan sallied into Magnus's salcon, where a deputation of ten Liverpool police sergeants awaited him with a brace of the most bowlegged bulldogs in England. They had come to present a token of esteem, admiration and gratitude for the able manner in which on several occasions he had assisted them to keep the peace of which

they were guardians. Sullivan replied with a Sullivanesque version of one of our Minister Phelps's common-ancestry, same-blood-and-mutual-liter. sture speeches, while his faithful friend, Sylvie Gookin, the oarsman, took charge of the bulldogs without flinching.

Soon after 9 o'clock, in an open landar followed by many carriages containing friends, the big fellow drove to the landing pier through Lime Church and streets, which were black with peopele shout-

ing "Good-by, Sullivan!" After alighting at the pier one little boy drew near and blackened Sullivan's boots, which, owing to his agitation and the unexpected honor, he did very badly.

While Sullivan was shaking the uncor genial English dust from his feet, a special tug came puffing up the stream. A brass band aboard played "Yankee Doodle." The tug steamed out to put John on board the Catalonia, which was then casting cables.

A Mersey tug carrying 500 Sullivan diehards followed for miles, saluting, whistling and cheering. Sullivan was profoundly touched by the loyalty of his friends, which was hardly to be expected from such new acquaintances,

and several times he burst out crying. When the time came for the last farewell off New Brighton he cried out in a voice which made the shrill steam whistle, which was going at the same time, silly and shy: Thank you, boys, and when you come to Boston you may count on Sullivan as your

While the tug was steaming about the Catalonia, young Burns, the swimmer, stripped down to his Galway green tights and sprang overboard, waving the American flag. After a half hour's natatory exercise, the man-fish was rescued and dried inside and out by approved methods.

McDonald, the trainer, was down to se the Boston man off, and Sullivan publicly thanked him for the able manner in which he had trained him. To show his confidence in the attacked ability and integrity of Mc-Donald, John said he would cable him when next he went into training.

"There is nothing mean about John," shouted the crowd. In addition to the bow-legged buildogs

Sullivan brings with him a boy, Tommy Burns, seventeen years old, weighing seven stone six, whom he intends matching against any of the American bantams. Sullivan only saw the young fellow put up his hands last night, and was immediately fascinated and induced him to go to America.

"I have nothing further to add to what I have already said to the American people through THE EVENING WORLD," remarked Sullivan. "I have been tricked from benning to end since I came to England, and I leave here with hard feelings towards all who were responsible; but when Mitchell and Kilrain come back to America I will have my say, I will mix it up for them. You can bet it will make them dizzy."

The last seen of the sorely disappointed fighter, who arrived with such different expectations, he was waving his hat, with his pretty wife at his side, wearing the diamond belt about his waist and drinking in cham-pagne huge bumpers to the jolly good fel-lows who had seen him off.

HIS OWN PRIVATE DRAMA.

The tragedian was studying legal papers

The noise was located as coming from the rear of No. 8, and people whose windows commanded a view in that direction soon saw the cause of the crash. The roof of the building at the rear and all of the walls in-cluded in the two upper stories had fallen and lay in a miscellaneous heap on the shak-

and lay in a miscellaneous heap on the shaking remnants of the structure.

In this ruin human beings, no one knew
how many, were involved, for a dozen workmen had been there when the fall took place.
The building, No. 8. was, until lately, occupied by a restaurant, the well-known
Morelli's, and the superstitious will recall, as
confirming their belief in omens, that it was

being weakened.

This morning the workmen were employed chiefly at the rear, where a portion of the structure was separated by a brick wall from emotion:
"Yes, sir, she shall be righted now, the poor lamb, bless her! She has had enough that fronting the street. At this point the

accident occurred.

The burden of the roof became too heavy for the weakened walls, pushed them out and then came the catastrophe.

A fire alarm was sounded immediately after the accident and firemen and policemen, an extra force of the latter under Sergt. Schmittberger and Roundsman Albertson, of the Nineteenth Precinct, were quickly on hand and at work. JOSEPH FAGETCHI, aged twenty-two, of Broome and Thompson atrects, instantly killed.

JOHN KRILAR, aged thirty-five, of I Macdongal street, burt in spine and nead. Taken to New York Hospital.

JOHN FRILLIPS, 216 Spring street, scalp wound, Walked to New York Hospital.

BANON NICKIER, 27 Suillyan street, contusion of back. Walked to hospital.

Sagetchi had been picking up bricks and was caught under the whole mass of stuff. He was doubled up and fearfully crushed under the bricks under the bricks. Kellar was also caught, but escaped with his life.

One workman jumped from the roof when it began to shake and landed safely on a small anner boiler-house nearly thirty feet below. How the others escaped was a mystery to all who afterwards looked at the fallen wails. With the exception of the building 6 West Twenty-eighth street, the structures around the ruined one were not damaged. Flying brick and plaster crashed into the rear of No. 6, and Zairra Cianni, a young married woman, who was sitting at one of the windows, was surrounded by debris. She was not injured, but being in a delicate condition the shock was very dangerous. It was reported a few moments later that her child had
